The above information replaces, supplements, or updates the corresponding section(s) of the 2025-2026 Catalog on page(s) (list the page number(s) to which the addendum specifically applies)

p. 19-22

LPN to RN

Approved: 11/2023

Trinity Health System School of Nursing offers a unique and dynamic LPN-to-RN articulation track. The accepted LPN student must successfully complete a 6 week non-credit Transition Course in October-November prior to entering the program in the Spring Semester. The LPN student will graduate after successfully completing five semesters/sessions after entrance. The LPN student also has the option of entering the program from the beginning thereby eliminating the Transition Course requirement, and instead, taking the N200 course.

In addition to the pre-admission educational requirements stated in the Admission Policy, the LPN applicant is required to possess a current, unencumbered, LPN license at the time of acceptance, having achieved a C or above in all nursing courses. This LPN license can also be used to satisfy the GPA and algebra I course requirements.

Trinity School of Nursing will grant credit to the LPN student for:

- N200 Fundamentals of Nursing Practice
- BIO 2114 Anatomy and Physiology – if not already completed with a C above, must be completed prior to entering the program in N201

Credit may be granted for the following courses if coursework has been successfully completed with a C or above and is comparable in content/practicum as those offered by Trinity School of Nursing. If credit is not granted, these courses must be taken as part of the curriculum:

- BIO 2120 Microbiology
- PSY 1120 General Psychology
- PSY 1130 Human Development
- SOC 1110 Sociology

In addition to the successful completion of the non-nursing courses above (if applicable), the student must successfully complete the following coursework to be a candidate for graduation:

- N201 Nursing Care of the Adult I
- N202 Nursing Care of the Adult II
- N203 Maternal-Child Nursing
- N204 Nursing Care of the Patient in Crisis
- N205 Transition to Professional Practice

The School establishes the same graduation requirements for basic and articulation students.
